SMART

SMART SOLUTIONS FOR
BUSINESS

Innovations for today's workplace

Transforming How You Do Business

SMART displays and software help teams collaborate – in any work environment.

The way we work is changing, and your technology needs to keep pace. SMART solutions enable more productive and effective collaboration leading to faster results – moving your business forward.
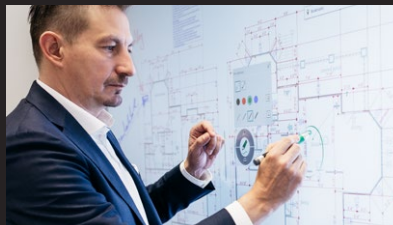

We make technology seamless

SMART solutions are the hub of dynamic workspaces that unlock everyone on your team, so they can all contribute from any location or device.

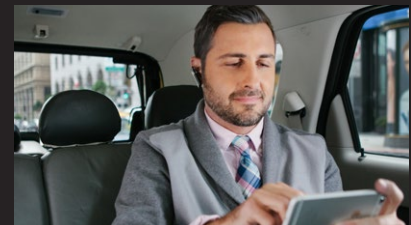

FLEXIBLE
Plug and play.

Choose the display, conferencing platform and peripherals that work for your environment and needs.

CONVENIENT
Any file type.

Write over any file type and save notes in popular file formats to continue where you left off.

COLLABORATIVE
Anywhere, anytime.

Anyone can follow along and contribute from anywhere in the world and from any device.

Do More in Your Workspaces

Today's workflows are about going beyond communicating to collaborating. SMART has spent 30 years designing hardware and software solutions that work together to create interactive environments.

Whether your technology needs are for boardroom presentations, remote training or open brainstorming – SMART has you covered.

WHAT You Want to Do

- Agile/Scrum/Lean Project Management
- Corporate Training
- Design Review
- Ideation and Innovation
- Command and Control
- Presentations and Conferencing

WHERE You Want to Do It

- Huddle Space
- Training Room
- Conference Room
- Meeting Room
- Personal Office
- Open/Public Space

Open spaces 36%↑

Huddle spaces 34%↑

80% of workspaces have collaboration technology

**54%** of meetings include remote participants

SMART Board® Pro interactive displays

Walk into the room, it turns on. Just start writing for faster breakthroughs, more informed decision-making and enhanced productivity – mitigating the risks that come with missed and miscommunication.

SMART Board
7000 Pro series with iQ

Our flagship interactive display. Featuring HyPr Touch™, the most advanced touch, writing and collaborative experience.

SMART
Meeting Pro

SMART Board
6000 Pro series with iQ

Put more heads together. Empower collaboration for more productive meetings.

SMART
Meeting Pro

Key Features

Multiple users. Multiple tools. Multiple colors. All at the same time. **Only with SMART.**

Whiteboard   Browser   Screen Share   Settings

Simultaneous Tool Differentiation lets multiple people use pens, erasers and fingertips together.

Object awareness™ recognizes a pen (write), finger (touch/move) or fist (erase), without manually selecting tools.

Pen ID™ lets multiple team members write with different colored ink at the same time.

Simultaneous touch points let multiple people write with fingers and use gestures, like zoom, rotate and flip.

SMART ink™ lets users write over and into every day applications and save notes in almost any file type.

Silktouch™ ensures a smooth, comfortable touch experience and eliminates finger burn.

iQ makes everything one touch away

SMART Board displays with iQ put everything you need in one place. The embedded computer offers one-touch access to SMART software applications and collaboration tools including a whiteboard, web browser, and wireless screen sharing from any Android™ (Google Cast), iOS® (AirPlay) and Windows® (Miracast) device – without plugging in hardware or installing apps.

More SMART Solutions

SMART Board **2000 Pro series**

Share freely

More than a basic, non-touch display. Wireless screen-sharing makes it easy for colleagues to show whatever is on their Android, iOS, and Windows devices. It's ready to go right out of the box – no apps, wires or extra hardware necessary.

SMART
Meeting Pro

SMART kapp®
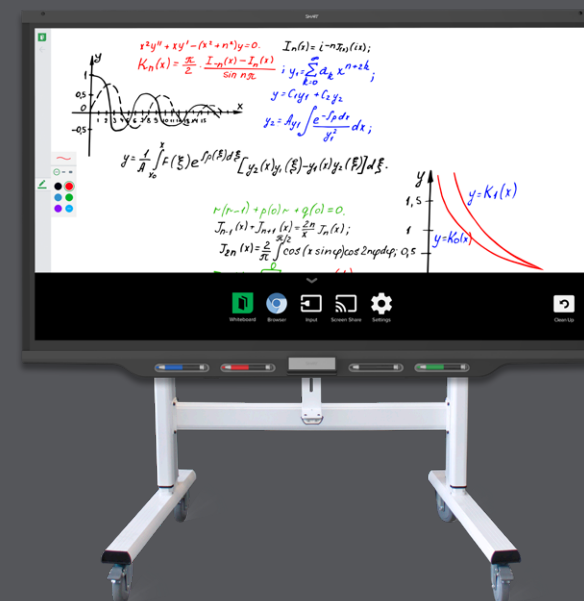

Work the same, but better

Just walk up and start writing with a dry-erase marker. Everyone you invite sees whatever you write, erase and draw on the whiteboard surface – as it happens. Save notes on your phone, tablet or PC and email sessions as PDFs or JPEGs. Protect sensitive work with encrypted connections.

SMART Podium™ **624**

Deliver dynamic presentations

Communicate more effectively. While projecting to a large display, presenters can add notes or illustrations on the 24" touch screen using the cordless, battery free pen – while facing the audience. The SMART Podium also lets instructors deliver training courses from a distance – anywhere, anytime.

SMART
Meeting Pro

SMART Height-Adjustable Electric Mobile Stand*

Create meeting spaces anywhere

Designed for the full lineup of displays, the SMART Electric Height-Adjustable Mobile Stand enables you to create collaborative meeting spaces for large to small groups in any office environment. With a power bar to connect the display and accessories there's only one cord to plug into the wall – making mobility a snap.

*Available in North America Only

SMART Software

All SMART interactive displays come with a 1-year SMART Meeting Pro software subscription including SMART ink that lets you interact with your content in ways you won't believe until you experience it.
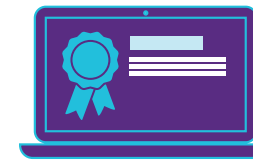

Training and Support Services

Partnering with SMART means we don't leave you to figure out how to use your collaboration solution – we help you achieve your goals. SMART provides training and has several installation and support services options to fit your needs and budget.

SMART Meeting Pro®

Unbound workspaces for limitless collaboration

This powerful visual collaboration software allows colleagues to create and capture ideas in the virtually unlimited unbound workspace, as well as make notes over any available application to keep meetings organized and easily communicate outcomes.

Training

Access our online training courses and self-serve, how-to videos on our hardware and software solutions anytime, anywhere, so you can get the most out of your collaboration technology – from Day 1 onward.

SMART ink

Write over anything. Save notes in any file type.

SMART ink lets you write and draw over and into PDFs, Microsoft Office® files, websites and videos, and save your notes as almost any file type. You can move, copy/paste and erase notes or convert them to text. Additional tools like the spotlight, magnifier and screen shade give you flexible ways to keep your audience focused on one area of the board.
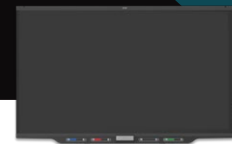

Support

SMART global support has the experience, knowledge and resources to ensure consistent, fast and effective support. SMART Service Plans provide flexible, scalable installation, software maintenance and support service level agreements to meet your needs.
